Serious Boats

Titan 2500

Titan 220

Titan 220 Offshore

Titan boats are becoming known the world over for their durability, seaworthiness, stability and performance. Each vessel is custom built to meet or exceed the individual and specific requirements of the client. Our heavy-duty patrol vessels are in use internationally for:

- Search and rescue
- Law enforcement
- Fire fighting
- Pursuit and boarding other vessels
- Recovery of persons both able and disabled from the water
- Transportation of injured or sick persons, and/or equipment
- Emergency towing of other vessels
- First aid platform
- Mobile marine command post and marshalling
- Combined helicopter/vessel air to water operations
- Scientific research including sounding, sample retrieval and data gathering

North American clients include the RCMP, Victoria Police, Canadian Coast Guard Auxiliary, Department of Fisheries, Parks Canada, US Coast Guard Auxiliary and Environmental Research Agencies.

Titan 190 - Jet
 Overall Length: 19'
 Beam: 9' 4"
 Horsepower range: 240 - 280 hp

Titan 230 Jet T-Top
 Overall length: 24'
 Beam: 9' 6"
 Horsepower range: 250 - 450 hp

Titan 249 Pilot
 Overall length: 27'
 Beam: 10' 6"
 Horsepower range: 300 - 450 hp

Titan 249XL
 Overall length: 27'
 Overall beam: 10' 4"
 Horsepower range: 300 - 450 hp

Titan 220 T-Top
 Overall length: 22' 9"
 Beam 9' 6"
 Horsepower range: 180 - 300 hp

Titan 240 Pilot
 Overall length: 27'
 Beam: 10' 6"
 Horsepower range: 300 - 450 hp

Titan 330
 Overall Length: 35'
 Beam: 10' 6"
 Horsepower range: 300 - 500 hp

Titan 220 Delta
 Overall length: 22' 9"
 Beam: 9' 6"
 Horsepower range: 180 - 300 hp

Titan 220 Pilot
 Overall length: 23'
 Beam: 9' 6"
 Horsepower range: 180 - 300 hp

Titan 240 T-Top
 Overall length: 27'
 Beam: 9' 10"
 Horsepower range: 300 - 450 hp

Titan 180 Tender
 Overall length: 18'
 Beam: 8' 6"
 Horsepower range: 90 - 150 hp

This is a small sampling of the hundreds of boats we have built over the years. See our website for more details on these and other Titan boats:

***We put a lot into our boats
 ...so you can demand a lot out of them***

Our boats are custom built to meet and exceed your requirements

Inboard gasoline engine

Jet drive

Motor guard

T-Top configuration

Delta pods with common dash

Delta configured pods

Helm in a Titan 220 Pilot

Overhead communications

Arch lights, radar

Portable pump in below deck storage

Bolster flip-up seats

Titan Boats wiring

Titan Boats

Titan Boats, a subsidiary of Titan Inflatables Ltd., is located on Vancouver Island in Sidney, B.C. Canada. Titan Boats is the result of over 15 years of dedication to developing the finest vessels of their type. The company has expanded its production line to include conventional aluminum vessels utilizing a modified hull form developed from successful principles of the Titan Rigid Hull Inflatables. Through its line of aluminum boats, the company has been steadily building a reputation for performance combined with a commitment to exceptional quality.

Each vessel is custom built to meet the individual and specific requirements of the client. The standard hull is available in sizes from 16' to 36' and can be adapted to suit a wide range of applications. Titan boats have a proven record for durability, seaworthiness, stability and performance in Patrol Duties, Search and Rescue, Fire Fighting and in Tourism and Recreational Vessels.

Quality Policy

The company Quality Assurance System is based on and equivalent to ISO 9001-2000 and endeavours to meet all the objectives as identified in the Standard.

Welding

Titan Boats is certified to the Canadian Welding Bureau (CWB) CSA Standard W47.2, for aluminum welding.

Vessel Building Standards

Titan boats meet and/or exceed marine construction standards. These include TP 1332 "Construction Standards for Small Vessels" and TP 9247E "Standards for the Construction and Testing of Emergency Boats."

Warranty

Titan Inflatables Ltd. provides a one (1) year warranty which applies to the vessel, and those components manufactured and installed by Titan Boats, its subcontractors and those not covered by a specific manufacturer's or supplier's warranty. Titan Inflatables further supplies a specific five (5) year warranty, which applies exclusively to the structural hull of the vessel.
