

**MP-FB-7 - "SEVEN FLASH/BANG" DISTRACTION GRENADE**

**DESCRIPTION**

Our MP-FB-7 Flash Bang Distraction Grenade is designed to create a distraction / disorienting effect in civil unrest situations or during tactical entry. It can also be used to simulate small arms fire during training. 1.5 seconds after being thrown, the grenade will begin discharging with loud "Bangs" and bright flashes of light. The 7 bangs are spread out over 3 to 4 seconds. The emission area on the grenade top and bottom produces a balanced output to keep the grenade from moving on discharge.
